## **3. The concept of the SP**

The goal of the educational program is consistent with the mission of the university aimed at generating new competencies, training a leader who translates research and entrepreneurial thinking and culture.

The educational program is harmonized with the 6th level of the National Qualifications Framework of the Republic of Kazakhstan, with Dublin descriptors, 1 cycle of the Qualifications Framework of the European Higher Education Area. (A Framework for Qualification of the European Higher Education Area), also with the 6th level of the European Qualification Framework for lifelong education (The European Qualification Framework for Lifelong Learning).

The educational program is focused on professional and social order through the formation of professional competencies related to the necessary types of research, practical and entrepreneurial activities, adjusted to meet the requirements of stakeholders.

The uniqueness of the EP 6B01730 accredited by an independent agency for quality assurance in education

- Foreign language two foreign languages is determined by the multidisciplinary approach of organizing modules; competencies possessed by a bachelor who has completed training within the framework of this program - i.e. the emphasis is on the development of research and communication skills and the training of highly motivated teachers of foreign languages for the updated content of foreign language education, as well as the involvement of ethnic native speakers in the implementation of the educational program.

The educational program is aimed at achieving learning outcomes through the organization of the educational process using the principles of the Bologna process, student-centered learning, accessibility and inclusion.

The learning outcomes of the program are achieved through the following training activities:

- classroom classes: lectures, seminars, practical and laboratory classes - are conducted taking into account innovative teaching technologies, the use of the latest achievements of science, technology and information systems;

- extracurricular activities: independent work of the student, including under the guidance of a teacher, individual consultations;

- carrying out professional practices, the implementation of term papers and theses (projects).

The university has taken measures to maintain academic integrity and academic freedom, protection from any kind of intolerance and discrimination against students.

The quality of the EP is ensured by the involvement of stakeholders in its development and assessment, systematic monitoring and review of its content

LO 4, LO 6
			General linguistics	Examines the methodology of linguistics, methods of scientific research of language, as well as the structure, composition, subject and heuristic possibilities of the disciplines of linguistics; allows you to develop skills in working with scientific literature on linguistics, as well as the use of scientific terminology of linguistics, techniques and methods of scientific description and research of language; allows for a comparative analysis of promising areas of linguistic research.		
Methodological foundations of teaching	BK	Foreign language education and assessment methodology	Considers the methodological categories and patterns of their functioning, the peculiarities of foreign language education in various types of schools at different levels of education; allows you to master the skills of formulating methodological tasks, using the selected language material, techniques, teaching aids; allows you to develop the skills of analyzing modern teaching materials for the purpose of their rational use, as well as the development of exercises to stimulate communicative activity.	6	LO 2, LO 3, LO 4, LO 5, LO 7, LO 8, LO 10	
	BK	Educational and educational pedagogical practice	Introduces methodological experience and work system of an English teacher; allows you to deepen the knowledge gained in practice in teaching and educational pedagogical work, taking into account the age and individual characteristics of students; develops the skills of conducting various types of lessons using a variety of methods that activate the cognitive activity of students, as well as the skills of analyzing the planning and results of educational work.	4	LO 5, LO 6, LO 7,	
	BK	Industrial teaching practice	Master the system of educational work, the structure and content of teaching English, forms / methods of extracurricular work; develops the skills of conducting lessons using innovative technologies, active methods, techniques and teaching aids; allows	10	LO 4, LO 5	

				you to master the skills of using multimedia equipment, electronic publications.		
Theoretical course of the main foreign language	KB	Lexicology		Examines the basic concepts and terminological apparatus of the lexicology of the English language; allows you to develop the skills of highlighting word-formation elements, using stable expressions and idioms, synonyms, antonyms, homonyms, etc. in communicative situations; allows you to analyze the styles of the statement and, depending on the style, the use of appropriate vocabulary (scientific, business, clerical styles, friendly message, etc.).	7	LO 1, LO 3, LO 4, LO 6
		Semasiological characteristics of English vocabulary		Examines issues related to the characteristics of English vocabulary, the etymology of words, the history of individual words, the meaning of words, their sound design, morphological structure, etc.; allows you to develop skills in applying structural methods and techniques for studying the semantics of words, analyzing the problems of modern semasiology, as well as the semantic structure and ways of semantic development of the English word, problems of lexical meaning.		
		Country geography		Introduces the history of the development of regional studies as a science, as well as the realities of the social and political life of the country of the target language, its geography, government, political parties, education system, etc.; allows you to master the terminological apparatus of complex regional studies, as well as develop the skills of analyzing diagrams and graphical schemes, the ability to navigate the maps of the studied region.	4	LO 1, LO 3, LO 4, LO 6
		Linguistic and regional studies		Examines the political and state structure of the country of the target language, issues of economy, education, health, etc.; allows you to master the system of background knowledge, including worldview, ethical assessments, norms of speech / non-speech behavior; allows you to master the techniques of introducing, consolidating and activating specific linguistic units and regional reading of texts; develops the skills of language analysis in order to identify national and cultural semantics.		
		Theoretical phonetics		Examines the main provisions of phonetic theory, phonetic and phonological characteristics of the system of vowels and consonants of the English	4	LO 1, LO 3, LO 4, LO 6

				language; allows you to develop skills in working with educational, methodological and scientific literature on theoretical phonetics, to master the pronunciation skills of listening, reading and speaking, the ability to implement them in various communicative situations; forms the ability to analyze the latest publications on topical problems of phonetics.		
		Phonology		Considers the main provisions of phonology as a branch of linguistics that studies the structure of the sound structure of the language and the functioning of sounds in the language system; contributes to the development of skills in describing the system of phonemes, their modifications, typical phonetic phenomena, correct operation of basic terms and concepts; allows you to master the technique of linguistic analysis of segment / super-segment phonetic units and the analysis of the relationship between phoneme and sound.		
KB		Theoretical grammar		Examines the main provisions of grammatical theory, stages of development of theoretical grammar, modern concepts in the field of the grammatical structure of the English language; promotes the practical application of knowledge about the language structure in general and the grammatical language level; allows you to develop the skills of analyzing the features of grammatical means used in various types of discourse for the implementation of the set educational and professional communication tasks.	4	LO1, LO2, LO3, LO 4, LO 6
		Functional grammar of modern English		Examines the grammatical structure, modern trends in the development of English grammar; promotes the application of the knowledge gained when performing exercises aimed at developing skills and speaking skills, recognizing grammatical phenomena that must be mastered receptively, as well as in various communication situations and during interpretation / translation; allows you to develop the skills of analyzing the grammatical phenomena of modern English.		
Applied linguistics and intercultural communication in foreign language education	KB	International proficiency tests		Examines the requirements for language proficiency and speech skills; provides information about the history of development, classification of international level tests, the order of their organization and conduct;	4	LO 3, LO6

				allows you to develop skills in the practical use of the main forms of language testing, systematize test tasks for controlling various types of speech activity based on the development and evaluation of the results of tasks of various levels of complexity.		
			Standardized tests (PET)	Demonstrates knowledge of English grammar in the volume of standardized tests, words and expressions typical for the highest level of learning English, the basic principles of working with large amounts of information. Solves lexical and grammatical problems. Identifies major topics in a wealth of information. Analytically evaluates information. Performs test tasks quickly and efficiently.		
KB			Speaking and writing practice	Allows you to master phonetic, lexical, grammatical language means of oral and written communication; contributes to the development of a productive and receptive lexical minimum, a cliche of speech etiquette when analyzing authentic materials (in accordance with a communicative task); allows you to develop the skills of conducting all types of dialogue and polylogue in situations of official and unofficial communication (in compliance with the norms of speech etiquette).	4	LO 1, LO 3, LO 6
			Speech practice	Demonstrates the ability to communicate verbally and in writing in foreign languages to solve the problems of interpersonal and intercultural interaction. Knows the basics of speech culture in English, organize cooperation of students, support their activity by means of the English language.		
KB			Language for Academic Purposes	Examines the national and cultural specifics of speech behavior in the academic environment based on mastering the "academic" vocabulary: the vocabulary of a neutral / formal style, characteristic of written speech (essay, article) and oral speech situations requiring a more formal style (reading a report, speaking at a conference) ; allows you to master the practical techniques of note-taking (using abbreviations) and public speaking skills in the format of an academic presentation.	8	LO 1, LO2, LO3, LO 8
			Foreign language academic writing	Analyzes theoretical concepts and factual data, make comparisons, generalizations on their basis, creatively use theoretical positions to solve practical problems,		

			put forward a hypothesis, formulate and express his own opinion on topical problems of science and practice in the field of professional activity, interpret, prove, and argue his own point of view based on certainty, consistency.		
KB	Second foreign language (B2)		Examines grammatical categories, rules for phonetic design of speech in a second foreign language, provided for by level B2; allows you to master the skills of using the studied grammatical, phonetic material, as well as the lexical minimum necessary for the manifestation of communicative competence in the most common situations; contributes to the development of skills in analyzing the content and the main stylistic features of the seen, read or listened to authentic material.	5	LO 1, LO 3, LO4, LO6
	Practical course of a second foreign language		Examines phonetic, lexical, grammatical linguistic means of oral and written communication in a second foreign language; allows you to master the lexical minimum, the cliche of speech etiquette when analyzing authentic materials presented in a second foreign language; contributes to the development of skills to conduct all types of dialogue and polylogue in situations of official and unofficial communication (in compliance with the norms of speech etiquette).		
KB	The language of mass media		Considers topical problems of media linguistics: the specifics of the impact of mass communications on the development of society, the features of the functioning of modern media, mass media genres and their linguistic features; allows you to develop the skills of summarizing, annotating, interpreting and creatively commenting media texts, as well as analyzing articles as the main genre of mass media discourse with a comparative analysis of the language styles of modern English-language publications.	4	LO 1, LO 3, LO 6
	Social and political vocabulary		Forms knowledge of the linguistic features of political discourse, as well as the ability to work on social and political texts, including the development of critical thinking in the framework of interactive forms of communication (dialogue, monologue, polylogue, debate, discussion, conference).		
KB	Stylistics		Considers the system of stylistic means of the English literary language, contributing to the understanding of modern ideas about stylistic resources and the functional-style system: the conceptual apparatus of	5	LO 1, LO 3, LO 4, LO6

				stylistics, methods of linguistic-stylistic analysis and their practical application in the analysis of texts of different genres, stylistic possibilities of linguistic means of various levels (phonetic, lexical, grammatical) based on the ability to analyze the functional styles of modern English.		
			Literature of the target language country	Demonstrates knowledge of the object of study of literature and its relationship with other linguistic sciences; masters literary vocabulary. Reads, understands and comprehends the content of the text with varying depth of penetration into the information contained  Formulates his point of view. Demonstrates the ability to work with fiction and dictionaries. Applies artistic expressions and stylistic techniques in his speech.		
KB			Modern English language	Demonstrates practical knowledge of the lexical, grammatical and phonetic structure of the modern English language.  Demonstrates independent creativity in the form of a monologue and dialogical statement on a given topic. Participates in discussions, conferences. Applies knowledge of modern English in oral and written communication.	6	LO 1, LO 3, LO 4
			Business English	Allows you to master the terminological stock, business communication skills based on the acquired knowledge about the structure of companies, the specifics of interviewing, writing a resume, styles of business communication, the role of advertising; promotes understanding of the state of modern business and the market; allows you to develop teamwork skills to achieve common goals by analyzing and applying information obtained from business sources.	6	LO 2, LO 3, LO 4, LO 6

**REVIEW  
for the educational program 6B01730-Foreign language: two foreign languages,  
developed at SKSU M. Auezova, Shymkent**

School-lyceum №24 named after S.Yerubayev is the oldest and most prestigious educational institution in the city of Shymkent, one of the hundred best educational institutions of the Republic of Kazakhstan. The main task of the gymnasium is to create the necessary conditions for obtaining an education aimed at the formation, development and professional development of an individual on the basis of national and universal values, achievements of science and practice.

In a market economy, one of the priority areas of education is the training of competitively capable personnel based on the continuous development of the intellectual and spiritual potential of the individual. The sphere of foreign language education is no exception, in this regard, the educational program 6B01730-Foreign language: two foreign languages for teachers of two foreign languages is necessary, and its content is relevant.

The learning outcomes are accurate and achievable, and the competencies that are formed reflect the demands of the labor market. The content of the educational program contains components aimed at the development and consolidation of practical skills. The components of the educational program are professionally oriented. Section 5. Information about disciplines very clearly informs about the content of disciplines and learning outcomes. The module for acquiring new professional competencies is of an applied nature and is focused on the formation of translation skills and makes the peer-reviewed educational program more attractive, expanding the boundaries of the subsequent employment of graduates.

This program takes into account the educational needs of students, and the modular principle of construction and the credit system of training play an important role in drawing up the individual educational trajectory of the student and provide the flexibility necessary to participate in international academic mobility, within the framework of the integration processes taking place in the world.

**Director of school-lyceum  
№24 named after S.Yerubayev**

**Zh.T Nysanbayeva**

**Expert opinion form (internal)**  
**Expert opinion**  
**for the educational program 6B01730-Foreign language: two foreign languages**

The current situation in the Kazakh market of educational services is characterized by increased competition. At the same time, the key factor in the competitiveness of educational organizations is the quality of the educational services provided, which is established using various quality assessment mechanisms. One of the priority areas is the training of competitively capable personnel based on the continuous development of the intellectual and spiritual potential of the individual. The sphere of foreign language education is no exception, in this regard, the modular educational program 6B01730-Foreign language: two foreign languages for the training of teachers of two foreign languages is necessary, and its content is relevant.

The purpose of the educational program is consistent with the mission of the university, as well as the requests of employers and students.

The educational program complies with the National Qualifications Framework of the Republic of Kazakhstan. Learning outcomes, based on the Dublin descriptors in professional standards, are expressed through competencies. At the same time, 12 main learning outcomes are highlighted.

The content of the educational program complies with the State Educational Standard of Education dated October 31, 2018, the sectoral framework of qualifications in the field of education dated November 23, 2016. and professional standard Teacher dated June 8, 2017. The educational program has a modular structure, consists of five main sections: general modules, interdisciplinary modules, specialty modules, additional modules that go beyond qualifications and a module of additional education. The educational program contains components focused on theoretical and practical preparation for professional activity: modern pedagogy, criteria-based assessment of inclusive education, physiology of development of schoolchildren, theory and methodology of educational work, foundations of general and developmental psychology, methods of foreign language education, technology of criteria-based assessment, as well as six types of practice.

The components of the module are in a strict logical sequence from the easiest to the most complex. The educational program reflects the number of study load of students and teachers in credits, as well as in hours, which corresponds to the parameters of the credit education system.

As a result of mastering the educational program 6B01730-Foreign language: two foreign languages, the graduate is awarded the academic degree of bachelor of education.
